

University of Oklahoma Health Sciences Center

**Drug Screening for Students
Attending a Clinical Rotation Setting**

Scope/ Designated Programs	The information in this policy is intended for all OUHSC students/accepted applicants admitted to designated degree programs that include or may include a clinical component at a health care facility that requires drug screening as a condition of its affiliation with the University. Students should check with their college and/or degree program for specific requirements.
Policy	Drug screening(s) are required of all students in designated programs effective Fall Semester 2008 and accepted applicants to designated programs beginning Spring Semester 2009 as defined in Scope/Designated Programs above. As applicable, students/accepted applicants who do not pass the drug screening may be unable to complete degree requirements or may be denied admission to or suspended or dismissed from the degree program.
Rationale	<ol style="list-style-type: none">1. Health care providers are entrusted with the health, safety, and welfare of patients; have access to confidential and sensitive information; and operate in settings that require the exercise of good judgment and ethical behavior. Thus, an assessment of a student's or accepted applicant's suitability to function in a clinical setting is imperative to promote the highest level of integrity in health care services.2. Clinical facilities are increasingly required by the accreditation agency Joint Commission on Accreditation of Healthcare Organizations (JCAHO), to provide a drug screening for security purposes on individuals who supervise care, render treatment, and provide services within the facility.3. Clinical rotations are an essential element in certain degree programs' curricula. Students who cannot participate in clinical rotations due to a positive drug screening are unable to fulfill the requirements of a degree program. Therefore, these issues must be resolved prior to a commitment of resources by the College or the student or accepted applicant.4. Additional rationale include (a) meeting the contractual obligations contained in affiliation agreements between OUHSC and the various health care facilities; (b) performing due diligence and competency assessment of all individuals who may have contact with patients and/or research participants; (c) ensuring uniform compliance with JCAHO standards and agency regulations pertaining to human resource management; (d) meeting the public demands of greater diligence in light of the national reports on deaths resulting from medical malpractice and medical errors.

<p>Timing and Procedures of the Drug Screening</p> <p>Accepted Applicants: (as defined in Scope/ Designated Programs)</p> <p>Current Students: (as defined in Scope/ Designated Programs)</p>	<ul style="list-style-type: none">• The respective college/program designee will provide accepted applicants to designated programs with the necessary procedures and consent forms for the required drug screening.• Accepted applicants in designated programs must complete the following prior to the start of classes.<ul style="list-style-type: none">- Complete and sign the Drug Screen Consent and Release Form and return form to drug screening vendor.- Successfully pass the drug screen with sufficient time for the vendor to provide clearance documentation to the respective college/program designee. <p>Note: <u>Should the vendor report that the screening specimen was diluted, thereby precluding an accurate drug screen test, the student/accepted applicant will be required to complete and successfully pass a new drug screen test.</u></p> <p>If an accepted applicant fails to complete the above prior to the first day of classes, he/she will not be allowed to begin classes and will jeopardize their admission status in their program.</p> <ul style="list-style-type: none">• Current students in designated programs will be drug tested at the beginning of each academic year or more frequently if required by the clinical rotation site or by the OUHSC.• Students who need to complete drug screening will be provided with the necessary procedures and consent forms for the required drug screening by the respective college designee.• Students who fail to adhere to the drug testing deadline set by their college will be suspended from all classes until the vendor (see below) provides OUHSC with clearance documentation to the college designee.
<p>Identification of Vendors</p>	<p>OUHSC will designate an approved vendor(s) to perform the drug screenings. Results from any company or government entity other than those designated by OUHSC will not be accepted.</p>
<p>Allocation of the Cost</p>	<p>Students and accepted applicants must pay the cost of the drug screenings.</p>

<p>Period of Validity</p>	<p>Drug screening will generally be honored by OUHSC for a period of one year but may be required on a more frequent basis depending on the requirements of a clinical rotation site. Students who have a break in enrollment may be required to retest before they can re-enroll in any courses. A break in enrollment is defined as non-attendance of one full semester (Fall or Spring) or more. A student on Leave of Absence is considered by OUHSC to be in continuous enrollment.</p>
<p>Drug Screening Panels</p>	<p>The drug screening shall include testing for at least the following drug panels:</p> <ol style="list-style-type: none"> 1. Amphetamines 2. Barbiturates 3. Benzodiazepines 4. Cocaine Metabolite 5. Opiates 6. Phencyclidine (PCP) 7. Marijuana (THC) Metabolite 8. Methadone 9. Methaqualone 10. Propoxyphene 11. Meperidine
<p>Reporting of Findings and Student/Accepted Applicant Access to Drug Screening Report</p>	<p>The vendor will provide the respective college or program designee with a list of those students who passed a drug screen test. The vendor will also provide the student/accepted applicant with the results of the drug screening report.</p> <p><u>Note: Should the vendor report that the screening specimen was diluted, thereby precluding an accurate drug screen test, the student/accepted applicant will be required to complete and successfully pass a new drug screen test.</u></p> <p>Students with a positive drug screen will have an opportunity to consult with a Medical Review Officer, provided by the vendor, to verify whether there is a valid medical explanation for the screening results. If, after review by the vendor's Medical Review Officer, there is a valid medical explanation for the screening results, the vendor will notify the University of a clear test. If, after review by the Medical Review Officer, there is not a valid medical explanation for the positive screen then the test results will stand.</p> <p>Any appeal right of a positive screen rests solely between the student/accepted applicant, the Medical Review Officer, and the vendor.</p>

Recordkeeping	Reports and related records (both electronic and paper media) are retained in a secure location and are maintained in the respective college or program office for the timeframe listed below unless otherwise required by law. <ul style="list-style-type: none">• Current Students – 5 years• Accepted Applicants – 2 years (provided no legal complaint)
