President Boren, who has served Oklahoma as governor and U.S. senator, became the thirteenth president of the University of Oklahoma in November 1994. He is the first person in state history to have served in all three positions. Now in his 23rd year, President Boren is the second-longest serving president in the university’s history, only behind President George Lynn Cross.

Boren is widely respected for his academic credentials, his longtime support of education, and for his distinguished political career as a reformer of the American political system.

Since 1995, more than $2 billion in construction projects have been undertaken on OU’s three campuses. OU is a leader among all American universities in international exchange agreements and study abroad programs. The University currently offers programs in over 80 countries and over 223 cities across six continents. OU has increased—from 94 to more than 562—the number of endowed faculty positions since President Boren arrived to campus, demonstrating a strong commitment to excellence.

If you have questions or comments regarding OU, President Boren has established the President’s Action Line (405) 325-1212 or actionline@ou.edu to assist you.
“You are part of a very special community, and I appreciate your contributions to our mission and leadership.”

Meet

JASON SANDERS, MD, MBA
SENIOR VP AND PROVOST
Meet Your Provost

When did you start at OU?
Day one as a Sooner was 1996 in President Boren’s master class on Government.

When did you join the OUHSC?
In 2013 and have served as Senior Vice President and Provost since 2015.

What is your favorite song to play in the car?
My Spotify playlist has Coldplay, Imagine Dragons, U2 and lots of 80’s beats.

Where did you meet your wife, Tammy, and when did you marry?

Do you have children?
Yes, Will was born in 2007 and Luke was born in 2010, both in Boston.

Which event in the past, present, or future would you like to witness in person?
Luke and Will becoming husbands and fathers.

What is your educational background?
B.S. in Biochemistry at OU, followed by a M.A. in English Language and Literature, Trinity College, Oxford University on a Rhodes Scholarship, then MD and MBA at Harvard Medical and Business School.

Where did your business and medicine training lead you?
I had the opportunity to do healthcare consulting at McKinsey & Company, a global management consulting firm.

Where did you do your residency?
Massachusetts General Hospital in Internal Medicine.

If you could learn more about one unfamiliar subject, what would it be?
Tough choice with so many options! Probably physics.

What are the top things students new to OUHSC should know?
We are one of the most comprehensive academic health centers in the country.

We are part of a leading healthcare delivery system. We are thrilled you have joined the Sooner family.

You have worked hard to get here and we are committed to your success.

Leave a legacy - inspire your fellow learners and transform your patients’ lives.

Thank you for choosing to be a part of our community.

Jimmy Manyanga

What was the biggest factor that encouraged you to go into a health career?

To make a contribution. I think I always wanted to contribute something in the concerted effort to ameliorate the human experience. I didn’t know how, but I find health careers offer that opportunity. Especially as a scientist, every breakthrough is achieved through collaboration. It’s not perfect, but I would say that’s the beauty of being a scientist.

What has been the biggest challenge thus far?

One thing about research is that you don’t always get results that support your hypothesis, and you’re forced to repeat experiments over and over again. That can be frustrating sometimes. Having a natural killer instinct, my challenge was in learning to adjust and being patient, learning to diagnose and repeat experiments many times. I think I’m better at it now than before.

What words of advice do you have for others?

Apart from my faith, my favorite piece of wisdom would be from Lincoln’s words: “The best way to predict the future is to create it.” I find this to be very true in my work and all health care professionals. I believe through collaboration, responsibility, and hard work, we can definitely create better health care systems. Of course, “it takes a village to raise a child”. I’ve had countless mentors and people that have influenced me a lot along the way.
Daneil Terracina
What was your path to the HSC?

My journey to physical therapy school was a little different than most of my classmates. Many of them started in the program immediately after finishing their undergraduate degrees, but I received my bachelor’s degree in professional writing back in 2011. After graduating, I worked as a copywriter for several years, but I really struggled to find emotional fulfillment in my job. After several years of spinning my wheels, I finally decided to make a change. The process of completing the necessary prerequisite courses and observation hours took several semesters, but eventually I applied to the physical therapy program. During the application process, I entered a new phase in life—I got married!

How do you balance your academic, family and community life?

The academic rigors of the doctorate of physical therapy program are very difficult. My wife is super supportive, and she’s such a good sport that she spends hours quizzing me before exams. Sometimes we go to a coffee shop on weekend nights and I study while she reads. This is a bit of a departure from a typical date night, but it still gives us time together. I also meet with classmates often to practice techniques for lab exams or to study lecture material. I’ve developed close friendships with a lot of my classmates, and we try and reserve time to go out and do something social that doesn’t involve studying several times a semester. I also try and stay involved with events on campus. Whether it’s book clubs, community service projects, or social hours, there are always fun experiences for students to take advantage of throughout the semester.

“While my journey to the HSC may not be the typical one, I believe the myriad of life experiences provides me with a unique perspective in the Doctor of Physical Therapy program that sets me up for success as a future clinician.”

Meridith Corwin
Why did you choose healthcare, specifically Dentistry?

I am drawn to dentistry’s integration of art, science, and compassion for others. I also have a unique fascination with teeth and their distinct structure and function in the body. Many people say they could never work in a person’s mouth, but that’s the first thing I notice on a person.

Tell us your favorite memory from your first-year experience at OUHSC.

If I have to pick just one favorite memory from my first year, it would have to be working with my classmates on our Ke$ha parody video, “Dent Doc.” I got to meet students from every class and enjoy a day of fun with them. The video is hilarious!

How did your leadership involvement impact your HSC experience?

The biggest motivations for me to go into a health career have probably been my desires to know how the human body functions and to know and help those around me. Health professions live at this junction of science and compassion, which have always been interests of mine.

Being able to come together with a new generation of leaders in various health professions and disciplines has been one of the greatest impacts on my HSC experience from Leadership HSC. Hearing stories from the current role models in leadership positions inspires what can be accomplished through teamwork and collaboration.

“...being able to give back to the community you grew up in has been rewarding and something I will continue to be a part of.”

A: We’re located in the Service Center Building on the corner of SL Young & Lindsay at 1100 N. Lindsay Avenue, Suite 100, Oklahoma City, OK 73104. We are open from 7:30 AM-5 PM, M-F.

Q: Do I have to purchase a parking permit?
A: Any employee or student who wishes to park a motor vehicle in any of the parking lots operated by the Health Sciences Center must have a parking permit and decal. Contact the Parking Office for the permit that best fits your need.

Q: Can I park in patient or visitor parking?
A: No, unless you are being seen as a patient and have notified the Parking Office in advance. A “visitor” is defined as any person, to include patients, unaffiliated with the organizations and entities of the Oklahoma Health Center as an employee, contractor, student, vendor, office occupant, or tenant.

Q: What do I do if I forgot my hangtag or drive a different vehicle?
A: Park in the same place you normally park. Use the call box to get into the lot or garage if needed. Then use one of these three options:

- Call the Parking Office at (405) 271-2020
- Email us at parking@ouhsc.edu
- Use the “Leave Alone List” link on the OUHSC Parking website

We will need a description of the car you are driving, the license plate number, and which lot you will be parked in. We do not need to know which doctor you are seeing or why.

Q: I, my spouse, or someone else is coming to the doctor with my car that has a parking sticker on it. What do I need to do so they don’t get a citation?
A: Park in the same place you normally park. Use the call box to get into the lot or garage if needed. Then use one of these three options:

- Call the Parking Office at (405) 271-2020
- Email us at parking@ouhsc.edu
- Use the “Leave Alone List” link on the OUHSC Parking website

Information for appealing a citation can be found at https://www.ouhsc.edu/parking/.

For credit card security reasons, we cannot accept credit card payments by phone.

Q: What do I need to do so they don’t get a citation?
A: Citations are given for violations of the OUHSC Parking Rules & Regs.

If you have questions, contact the Parking Office at (405) 271-2020. Citations must be paid within 10 days to avoid additional late fees. Citations may be paid in person at the Parking Office, by mail or online at https://www.ouhsc.edu/parking/.

Q: What are the shuttle routes?
A: A live GPS shuttle tracker is available at ouhsc.edu/transit

The OUHSC Police Department is certified by the State of Oklahoma, and its programs keep students as safe and alert as possible.

**EMERGENCY BLUE PHONES** are located all across campus. When the button on one is pressed, the police see the location the phone the alert originated from and will send an officer immediately.

The **EMERGENCY COMMUNICATION SYSTEM** alerts students, via five communication methods, when there is a potential safety threat. Therefore, it’s important for students to keep contact information current. To update your emergency contact information, go to http://gohsc.ouhsc.edu. For instructions, visit http://ouhsc.edu/ecs.

Students can call for a **CAMPUS SECURITY ESCORT** if they ever feel they’re in a hazardous environment. An officer will be sent to their location immediately.

The non-emergency number for the campus police is 405-271-4300 and can be used at any time.

SEXUAL MISCONDUCT

The University is committed to creating and maintaining a community where all persons who participate in University programs and activities can work and learn together in an atmosphere free from all forms of harassment, exploitation, or intimidation.

Sexual Misconduct
http://students.ouhsc.edu/StudentServices/SexualMisconduct.aspx

The University of Oklahoma is an institution built upon honor, integrity, trust, and respect. Consistent with these values, the University is committed to providing a safe and non-discriminatory learning, living, and working environment for all members of the University community. The University of Oklahoma does not discriminate on the basis of sex or gender in any of its education or employment programs and activities. As discussed more fully below, the University’s Sexual Misconduct, Discrimination, and Harassment Policy prohibits all forms of sexual harassment, sexual violence, sexual exploitation, relationship violence (domestic violence and dating violence), stalking, and retaliation.

Know the Policy

University policy prohibits:

• Sexual Harassment: Unwelcome sexual attention or action based on one’s gender that is so severe, persistent or pervasive that it unreasonably interferes with the work or educational environment.

• Sexual Violence: Physical sexual acts perpetrated against a person’s will or where a person is incapable of giving consent.

• Consent: The act of willingly and verbally agreeing to engage in sexual contact or conduct. Individuals who consent to sex must be able to understand what they are doing. “No” always means “No,” and the absence of “No” may not mean “Yes.” In order to give effective consent, one must be of legal age and have the capacity to consent. Incapacity may result from mental disability, intellectual disability, unconsciousness, age, or use of alcohol, drugs, medication, and/or other substances. In addition, coercion cannot be used to gain consent. Coercion is defined as the act of using pressure (including physical pressure, verbal pressure or emotional pressure), alcohol, medications or drugs, or force to have sexual contact against someone’s will or with someone who has already refused.

• Sexual Exploitation: Taking abusive sexual advantage of another.

• Dating/Domestic Violence: Violence, including assault, battery or other abuse between those in an intimate or dating or romantic relationship with each other.

• Stalking: Engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for their safety or the safety of others or causes substantial emotional distress.

• Retaliation: Any attempt to penalize or take an adverse employment, educational or institutional benefit action because of participation in a complaint.

Know what to do if you or a friend experiences sexual violence

If you or someone you know has safety concerns or needs medical attention, call 911 or go to a local emergency room immediately. Victims of sexual assault may also consider obtaining a forensic exam. The OKC Rape Crisis Center (RCC) or the YWCA in Oklahoma City offers these exams. The RCC also has advocates on-call 24/7. An advocate from OU can accompany the victim to the exam.

After a sexual assault or other sexual misconduct incident, a victim has many options and an OU Advocate can explain these options and provide support. OU Advocates serve as a confidential reporting resource to the University community in cases of sexual assault/misconduct, relationship violence, harassment or stalking. Advocates are available 24/7 to help navigate the administrative, medical, law enforcement and legal systems. OU Advocates can also assist victims with on-campus housing changes, academic assistance, and other remedial measures. They also provide immediate emotional support and can assist with referrals for other helpful services. To contact OU Advocates, please call (405) 615-0013.

HSC Student Affairs can also be a helpful resource by (i) providing support and counseling services to sexual misconduct/violence victims (faculty, staff or students), (ii) informing victims of available campus resources and disciplinary processes, (iii) providing advocates or other support to victims, (iv) conducting education programs to enhance awareness of sexual misconduct/violence on campus, and (v) providing information regarding the right to file a criminal complaint. To contact HSC Student Affairs, please call (405) 271-2416.

To file a report and commence an administrative investigation by the University, contact the Sexual Misconduct Office at (405) 325-2215 or smo@ou.edu. You can also complete an online complaint form at notonourcampus.ou.edu. For a printed brochure regarding the Sexual Misconduct, Discrimination and Harassment Policy, please call (405) 271-2416. Please note that the University’s policy is applicable, and resources are available, during a person’s entire HSC educational and/or employment experience.

Know your Rights

Sexual misconduct/violence victims have the right:

• To be informed of all reporting options
• To be free from pressure to make a criminal report
• To have allegations of sexual misconduct investigated by the appropriate criminal, civil and/or campus authorities
• To be notified of existing campus and community medical, counseling, and mental health services whether or not an incident is reported to campus or civil authorities

For more information, go to http://www.ou.edu/content/eoo/faqs/faqs-for-students.html, “Statement of the Rights of the Alleged Victim.”

OUHSC STUDENT GOVERNMENT ASSOCIATION

Your OUHSC Student Government Association (SGA) serves as the governing body for the OUHSC Student Association and includes the SGA Executive Board, SGA Executive Council, and SGA Senate. The SGA provides an effective means for all students to have a voice on the OU Health Sciences Center campus.

How to get involved:

SGA SENATE

SGA Senate includes representatives from each of the seven health professional colleges as well as the Physician Associate program. Senators are elected by each college and serve on SGA as voting members.

SGA EXECUTIVE COUNCIL

Executive Council serves in an advisory capacity for student initiatives and represents leadership from across campus. The Executive Council includes the Executive Board (SGA President, Vice President and Senate Chair, Secretary, Treasurer, Campus Activities Board), College Presidents, Multicultural Organization Presidents, and Chair/Liaison positions.

CHAIR AND LIAISON POSITIONS

SGA Chair and Liaison positions represent opportunities to serve in leadership position as part of the SGA Executive Council. Available positions each academic year include HSC Big Event, Diversity Week, Parking/Security, Campus Housing, OU Athletics Liaison, Academic Integrity, Legislative Liaison, All College Party, Student Hearing Panel, Sooner Safety Week, and Campus Blood Drives.
