

OU Physicians Student Health & Wellness Clinic Services (Academic Year 2017-2018)

Dear OUHSC Students,

We are pleased and excited to be able to offer you excellent health care during your time here on campus. As of June 1, 2017, the **Student Health Fee will only cover the following services for no charge to students:**

- **Acute Urgent care office visits and point of care tests** performed in clinic that are associated with these visits (Initial visit for that specific complaint only)

Medical Services- Covered Under the Student Health Fund – Acute Urgent Care Visits are designated for **one minor** illness or injury that is **less than 2 weeks in duration** which includes, but is not limited to the following list of symptoms/diagnoses:

- Acute respiratory infections (“colds”, “flu”, “bronchitis”, “sinus infections”)
- Acute skin infections and rashes
- Acute allergy or asthma exacerbations
- Ear infections
- Sore throat
- Cough
- Conjunctivitis (ie pink eye, allergies)
- Bladder infection symptoms
- Nausea, vomiting and/or diarrhea
- New musculoskeletal injuries – sprains, strains
- Recent onset back pain
- Acute injuries requiring wound evaluation and/or wound closure
- Travel medicine physician office visit consultations

The student health fee will only cover in-office point of care tests associated with an Acute Urgent Care visit. These point of care tests may include: Rapid streptococcal pharyngitis testing, rapid Influenza testing, urine dipstick testing, monospot (mononucleosis) testing, and urine pregnancy tests.

Medical Services- Billed to Student’s Health Insurance (Deductible and co-insurance costs may apply)

- Office visits for multiple issues
- Office visits for chronic problems (defined as greater than 2 weeks)
- Office visits requiring medication refills and/or medication monitoring
- Office visits to discuss referrals to a specialist if indicated
- Annual physical exams
- Well Woman Exams including pap smears
- All imaging studies (x-rays, ultrasounds, CTs, MRIs)
- All bloodwork processed outside of clinic
- STD evaluation and testing
- Female and Reproductive related issues
- Vaccinations
- Blood titers to check for immunity to various diseases
- All medical services including acute care visits of student dependents

Note: The designation of Acute Urgent Care Visit is at the discretion of the provider after patient has been examined and cannot necessarily be determined by a clinic staff member at the time of scheduling of your appointment.

Chad Douglas, MD, PharmD

Medical Director of OU Student Health and Wellness Clinic
